

# CLASSIC BLACK

The quality of speaker cables plays a major role in delivering music signal from your source to your loudspeakers. The Classic line uses ultra pure (Oxygen Free Copper 99.99%) copper in a black outer jacket. Polarity can easily be recognized thanks to the outer jacket geometry (round and square). The Classic B150 is ideal to connect small floorstanders, bookshelves and surround speakers in hi-fi or home-theatre systems for length up to 10 meters.
