

► Description

The BSB series are 19" blind panels with a brush strip which can be installed in any 19" enclosure. They are made of 1.2 mm thick steel, finished with a black (RAL 9004) structured powder coating. The panels provide an inlet through which any cable can pass without having any openings or holes in the enclosure. The brush will bend nicely around the passing cable, preventing any unwanted dust or dirt from entering the cabinet.

► Types

- BSB01 (1 unit)
- BSB02 (2 unit)
