Instructions for USB flash disk recording

Note: Before the video recording, make sure the USB flash disk format system is "FAT32", not "NTFS"

Step 1. Open the tool, enter the camera IP, click on the "Connect" button. (Shown as below)

Step2. Click on the "record" button. (Shown as below)

SDK DEMO v1	.17							_		×
-Login Info	Host: 192.168.1	.00. 238	Port: 5556	User	r: admin	Password	: ****	Connect		
First Stre 🔻	Start Stream	Play			Status	Record	Network	Overlay	Reboot	
-VIDEO Resoluti	on: QVGA 🔻			_ [-PTZ Contro		Loom	- VMD Work mode:	Dynami -
