

legendary Polk® sound, way outside the box

You take your music everywhere—on a plane, on the subway, or at home, the Hinge™ is an essential travel companion. With over 40 years of experience crafting quality audio products, Polk has designed a headphone for music lovers and design freaks alike. The dynamic drivers provide a rich and detailed listening experience, while the leatherette ear cushions sit comfortably on your ears, letting you focus on the music. With the Hinge, nothing is compromised. Crafted with sound, comfort, and convenience in mind. For the love of music.

comfort in every detail

- Ergonomically designed headband and pivoting ear cups ensure the Hinge conforms to the shape of your head for a comfortable, secure fit. The headband uses a lightweight, yet rugged aluminum hinge that enables the Hinge to fold down into a compact, easy-travel size. Passive Isolation technology includes plush over-ear pads that minimize outside noise.
- Superior materials, including durable, lightweight aluminum, stitched leatherette over a generously padded headband top and bottom, and virtually maintenance-free ear pads all come together to offer years of extraordinary performance on the go, anywhere.

convenience at your fingertips

- Built-in 3-button control and microphone give you intuitive one-finger control for audio and phone calls. A single detachable cable means a lot less tangle and a lot less hassles. A gold-plated 3.5 mm connector is precision-machined to seat deeper into the source connection. Place your iPhone® in landscape mode, and the connector will not get in the way of your hand.

Dynamic Balance® plus POET system design

- Polk, world-renowned for its sound quality since 1972, chose a 40 mm driver made of lightweight, durable PET material, housed in a vented enclosure. These drivers were developed using our Dynamic Balance design process that uses the variables of materials technology and diaphragm geometry to discover the right balance for the drivers' performance goals. With Hinge, Polk has taken a new approach to headphone system design called POET, Polk Optimized Electro-acoustic Tuning. This design process refines the drivers even further to improve overall performance balance and dynamics for an even more immersive listening experience.

inside the box

- Headphones
- 48" Cable (121.92 cm), in-line 3-button control & microphone
- Cloth bag
- Quick-fit guide
- Owner's manual
- Registration card
